Manila, Philippines

Metro is a global mission organization that brings the message of the Gospel and Jesus to kids in some of the poorest places in the world. Understanding that a church is not always available to all people, Metro brings church to the streets through action-packed kids programmes (“Sidewalk Sunday School”) consisting of bible-centred games, songs, drama, storytelling, and learning a memory verse. Relief aid is also provided at some sites.

After engaging the kids on the streets through Sidewalk Sunday School, Metro assigns a staff member to make weekly visits to the kids in their homes, to deepen relationship and minister to other family members too.

The purpose of this trip is for the SP team to join Metro as they go and serve the most marginalised communities in Manila. We will get an opportunity to hit the streets to assist with Sidewalk Sunday School, share love and hugs with the kids, and join in ministering to the kids and their families on home visits. In addition to reaching out, we will also be doing ministry within; praying for, encouraging, and lending our skills to help the Metro staff.

This trip is an opportunity to have our eyes opened to the situations of poorest of the poor as we visit some of the most impoverished areas in the Philippines, including the infamous “Smokey Mountain”.
